### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: claims 60-71 have been amended by substituting for the word "coating" in line 1 (claims 70 and 71 the first instance) the word --- method ---. This amendment is made to correct an obvious oversight in the dependency of these claims.

2. This application is in condition for allowance except for the presence of claims 15-36 directed to inventions non-elected without traverse. Accordingly, claims 15-36 have been cancelled.

3. The following is an examiner's statement of reasons for allowance: Although the prior art to Bambara et al teaches the composition used for the claimed coating layer, there is no suggestion to use the claimed composition with the specific copolymers as claimed for coating layers on electrical devices. The specific properties possessed by the composition when used in this fashion render the claims, therefore, both novel and unobvious over the closest prior art as cited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
